

## Scientist Says Military Craft Is Scare Object

ALBUQUERQUE, N. M., May 1 (UPI)—A scientist said Thursday a "super-pogo" military craft may be causing the flying saucer scare in the state, and "anyone living outside this troubled globe would be displaying absolute nonsense to come here." Dr. Linco, director of the Institute of Meteoritics at the University of New Mexico, referred to the shiny, bat-like object with four girder-like legs seen by Socorro, N. M., policeman Lonnie Zamora.

RAY LINCOLN  
...has filed as a Republican  
candidate for Twin Falls county  
fourth state representative  
post.

Linco said Zamora probably saw a modern VSTOL, a vertical takeoff and landing aircraft. He said the craft looks and behaves much like the object Zamora said he saw.

Police said they were tipped off that college students intended to paint a large balloon with aluminum paint and place a flashlight inside to give the appearance of a mysterious flying object.

Officers said they had received two calls which lead them to believe the saucer will be flying soon. Thursday afternoon they received a call saying a saucer had been sighted over the Rio Grande river.

Police Thursday said a downed plane was reported five miles from a truck.

takeoff and landing aircraft. He said the craft looks and behaves much like the object Zamora said he saw.

The air force said jet airplanes flying low and using bright electronic flash gear to take pictures may be what many New Mexicans have reported.

But many persons do not believe the reports. See SCIENTIST, Page 2, Col. 1.

## Police to Shoot

ALAMOGOSA, Colo., May 1 (UPI)—Alamogosa police Thursday planned to shoot down any "flying saucers" that are sighted over the city.

Police said they were tipped off that college students intended to paint a large balloon with aluminum paint and place a flashlight inside to give the appearance of a mysterious flying object.

Officers said they had received two calls which lead them to believe the saucer will be flying soon. Thursday afternoon they received a call saying a saucer had been sighted over the Rio Grande river.

## Red Tells May Day Rally Cuban Air Flights Will Be Dangerous

MOSCOW, May 1 (AP)—Premier Khrushchev said today continued U. S. violations of Cuban air space "can have disastrous consequences." "It will be a disaster, first and foremost, for those who carry through a policy of provocations and aggressions against Cuba," he told a Kremlin reception for guests at Moscow's big May day rally. Only the day before, Prime Minister Fidel Castro had told correspondents in Havana he would tolerate no more flights and if the Americans want war "they will get war."

The state department promptly said the reconnaissance flights would continue.

Earlier in the day, Khrushchev had stood atop Lenin's tomb in Red square and watched a display of Soviet rockets roll by, including a new anti-aircraft rocket. Never before shown publicly, its existence has been known in Western circles for about 18 months.

Khrushchev launched into the tough subject of Cuba at the Kremlin reception by describing as a "twisted fabrication" reports he said were circulating that there was some sort of U. S. Soviet understanding on U. S. reconnaissance flights over Cuba.

The premier declared "there never has been such an understanding," and said the Soviet Union has no such agreement with the Soviet news agency, reported. He said he firmly supports Castro.

The United States has continued reconnaissance was agreed upon during the 1962 crisis over Soviet missiles in Cuba as the only way to check on the withdrawal of the missiles. Castro had refused to permit checks on the spot.

On June 24, 1947, Arnold was flying a search mission over the Gulf of Mexico when he spotted a "saucer" in the sky. He described it to newsmen the next day as resembling "saucers skipping over water."

Arnold said he did not mean to start a big controversy one way or the other. "Arnold told UPI, 'I just made a proper report to the authorities.'"

Arnold said he still receives from 30 to 35 letters a week from people around the world reporting to him similar sightings.

audience concerned who had requested federal power be brought into this area.

Cliley answered that about 50 legislators signed a petition requesting BPA's move into southern Idaho and that there had been several letters written asking for BPA in this area.

In his prepared speech, prior to the question period, Cliley said power generation at federal multipurpose dams repays the cost of about 75 per cent of the project, and in addition provides substantial assistance to irrigation.

Cliley said "power is paying the major share of the cost of projects which provides such things as flood control, irrigation (which is so important in the economy of southern Idaho) and projects which within a few

years provide slack-water navigation through the Pacific ocean to Lewiston."

"Many people are interested in the public effects of BPA operations on the private utilities in southern Idaho," Cliley said. "On the basis of the experience of other private utilities in the rest of the Columbia basin, those utilities in southern Idaho should grow and prosper, invest more and pay more taxes."

"For example, the increase in net income after taxes between the years 1957 and 1962, which generally corresponds to the period BPA has been in operation, of the Idaho Power company increased 400 per cent, net income of Pacific Power and Light company increased 240 per cent, the net income of Montana Power

## Simplot and Four Others Indicted For Price Fixing

WASHINGTON, May 1 (AP)—The justice department announced Thursday that a federal grand jury in Los Angeles had indicted five chemical companies on charges of conspiring to fix prices in the sale of dry phosphate fertilizer materials in 11 western states. Atty. Gen. Robert F. Kennedy said the alleged conspiracy forced farmers, growers and other purchasers of phosphatic fertilizers to buy the materials under restricted terms.

Named as defendants, the department said, were California Chemical company, San Francisco, a wholly-owned subsidiary of Standard Oil company of California; J. B. Humphreys & Co., Boise; Balfour Guthrie and company, San Francisco, a subsidiary of Balfour Williamson company, Ltd., London; Conoco Products, Inc., Spokane, a wholly-owned subsidiary of Conoco Inc.; and Smeltling company of Canada, Ltd., and Western Phosphates, Inc., Salt Lake City, a wholly-owned subsidiary of Stauffer chemical company.

In Boise, Simplot attorney, Lloyd Haight said, he would not make a detailed statement until he sees the indictment.

"In any event, we're going to fight it," he said. "It isn't true and we'll deny it."

He said the company had known for some time that a federal grand jury was investigating. He said word from a newsmen who asked him for comment was the first he had heard about it.

The indictment charged that the price-fixing conspiracy began in 1957 and continued until at least 1961. The conspiracy allegedly violated the restraint of trade section of the Sherman anti-trust act.

Total sales of dry phosphate materials which are a major source of phosphorus used extensively as basic fertilizer products, exceeded 35 million dollars in the western states. The states include Washington, Oregon, California, Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah and Nevada.

Maximum penalty would be a \$50,000 fine for each firm.

The grand jury indicted the companies on charges of conspiring to fix prices in the sale of dry phosphate fertilizer materials in 11 western states.

## Catholic Women's State Meet to Open

Approximately 250 women from 30 Idaho towns will be in Twin Falls Saturday to attend the Idaho Council of Catholic Women's convention, slated for Saturday through Monday. The convention theme is "The Liturgy in Our Lives." Registration will begin at 9 a.m. Saturday at St. Edward's school. Opening convention ceremonies will begin at 2 p.m. at St. Edward's school auditorium. William Grange, Chamber of Commerce secretary-manager, will give the welcome. Saturday's activities will include an organizational clinic at 2:30 p.m., a tea at 4:30 p.m. and a dinner at 6 p.m. at the Roper hotel banquet room. The keynote address will be given by the Rt. Rev. Msgr. Edmund R. Cody, V.O.

Sunday's activities will begin at 8:30 a.m. with the unit presiding class of instruction. Pontifical low mass will be held at 10 a.m. at St. Edward's school, with the Most Rev. Sylvester W. Treinen, D.D., as celebrant.

The general session will begin at 2 p.m. A dinner will be served at 4:30 p.m. at the Roper club. A reception honoring Bishop Treinen will be held at 8 p.m. at St. Edward's school auditorium.

Mass for deceased members of ICCW will begin the Monday session at 8 a.m. at St. Edward's church. A buffet breakfast will be served at 8:45 a.m. in the school auditorium. The business session will begin at 9:30 a.m.

The concluding session will be held at the FAULA luncheon to be served at 12:30 p.m. Monday at the Blue Lakes country club. The mother of the year presentation will be made. The Very Rev. Bishop Treinen will give the address. Closing remarks will be given by Bishop Treinen.

Featured speakers include Bishop Treinen; the Rev. Perry Dodds, editor of the Idaho Register; Monsignor Cody, convention president; the Rev. E. V. Egan, parish priest; Newman foundation, Idaho State university, and Father Walsh.

The concluding session will be held at the FAULA luncheon to be served at 12:30 p.m. Monday at the Blue Lakes country club. The mother of the year presentation will be made. The Very Rev. Bishop Treinen will give the address. Closing remarks will be given by Bishop Treinen.

The concluding session will be held at the FAULA luncheon to be served at 12:30 p.m. Monday at the Blue Lakes country club. The mother of the year presentation will be made. The Very Rev. Bishop Treinen will give the address. Closing remarks will be given by Bishop Treinen.

## Filing Period Opens, Four Seek Offices

For persons filed declarations of candidacy Friday morning at the Twin Falls county courthouse for state and county offices.

There are Ray Lincoln, Republican candidate for state representative; Mrs. Ruth Jones, Democratic candidate for county treasurer; Mrs. Gertrude Rose, Republican candidate for county assessor; and Morris W. O'Neil, Republican candidate for county commissioner district No. 1.

Friday was the first day for filing petitions of candidacy for county, state and national offices.

Mrs. Jones, present county treasurer, was appointed to the office Oct. 14, 1963, to fill the unexpired term of Rose J. Wilson.

She was deputy county assessor for two years and was chosen to fill the county treasurer post because of her knowledge in all phases of law work.

She was born and reared in Kimberly and was graduated from Kimberly high school. She attended business college in Twin Falls.

She has one son, J. D. Jones, who is credit-service and public relations manager for Thelens & company. She is a member of the Methodist church.

Signifying the petition for Mrs. Jones were Gordon Gray, Joseph Hickey, J. O. Humphrey, Lyle Schuler, Lee Lechellier, Maurine Kase, all Twin Falls; W. D. Williams, Hamman; William Savar, Kimberly; M. V. Carlson, Lulu, and Merle Allison, Piler.

Mr. Rose, 135 Polk street, has had 14 years of experience in the county assessor's office and was born and raised in Piler, Okla. and moved to Twin Falls in 1942. She is a member of the Methodist church.

Mr. Rose had nine and one-half years in business and professional offices. She started to work in the assessor office in 1940.

Signifying Mrs. Rose's petition were Bill Cunningham, Henry Crow, Curtis Zellerbach, Ora Jones, all Twin Falls; Floyd Morrison, Murrell; Maurine Quier, Caldwell; John Heworth, Bill Max Henry, Piler, and Jim Blanford, Kimberly.

Mr. O'Neil, 1019 Morningstar drive, is a Republican candidate for the newly-created fourth district.

## Burley Is Struck by Violent Rainstorm

BURLEY, May 1—Burley residents were mopping up today after a brief but violent lightning and rain storm which struck early Thursday evening and lasted for several hours. The downpour forced city crews to work on storm sewers, slowed traffic on highway 30 to a near halt and flooded basements of private homes. Some telephone communications were disrupted, but officials of the Mountain States Telephone and Telegraph office here said Friday all lines were repaired and little inconvenience was caused.

The storm struck about 7:30 p.m., moving in from the southwest and some motorists reported at times they were forced to stop their cars as the downpour proved too much for windshield wipers to cope with. Lightning and thunder accompanied the cloudburst.

The Cedar drive area of Burley, the southwest part of the city, appeared to have been hardest hit by the rain.

Telephone communications between Burley and Rupert were disrupted although lines to the west weathered the storm undamaged. Rupert caught a fringe of the storm and had moderately heavy rains for a half-hour before it changed to a steady drizzle.

Danny Worsenroff, service foreman for Mountain States Telephone and Telegraph company in Burley, said late Thursday night it was possible for residents to call the two towns by referring to operators, but direct dial service for many telephones between Burley and Rupert was disrupted by the storm.

Two service crews worked on telephone lines late Thursday to repair the trouble.

Worsenroff indicated lightning may have caused service between the two towns to be disrupted.

A federal aviation agency at the Burley airport reported that 4.25 of an inch of rain fell from 4:25 to 6:45 p.m. and that there was "very little wind—less than 10 knots."

Burley police said they received no reports of damage and that some streets were flooded during the downpour, but the water moved off shortly after the storm moved out of the area.

RED TO VISIT EGYPT  
MOSCOW, May 1 (AP)—Premier Khrushchev will go to Egypt by ship with his family and official party to take part in the dedication of the Nile river high dam at Aswan, Arab diplomatic sources report. They would call the Black sea, Turkish straits, Aegean sea and eastern Mediterranean, arriving at Alexandria on May 2.

## Bewildered

LAFAYETTE, La., May 1 (AP)—A little bantam hen is bewildered by her mother's cry of "wheeee" — the world's 40th whooping crane.

The fledgling burst out of its half-pound egg at the Louisiana Wildlife Research station here Wednesday.

The bantam who sat on the egg, "mothering" it until it hatched, is a Japanese silk weighing one pound. The incubation period of whooping crane eggs is about 30 days.

The true mother of the chick, a whooping crane, Josephine, one of seven at the New Orleans zoo. The zoo is trying to hatch four other eggs.

# WORLD NEWS

By HENRY TAYLOR  
Does the American public even know the face of our enemy in South Viet Nam? Nobody who is a Communist.  
As with Castro in Cuba, Washington has been misled by Ho Chi Minh.  
Ho in Laos. But defiance was paid in "doom" to the great, the U.S. air force and navy and heavy protests.  
Castro in Cuba (incredibly) and we saw Ho's red forces a sanctuary in Laos. He

leopard with champagne and perceptions as quick as a typewriter fortune teller. The Kremlin plot went on the Ho Chi Minh until he was a Communist. Ho's associate, Mao Tse-tung, did the take-over deed and changed the whole geopolitical weight of the world.  
Ho returned to Moscow. His new orders were to spread terror and confusion in Hong Kong. The British looked him up for 18 months in the Kremlin and Shanghai. This convinced the surface Ho. Accordingly, the Kremlin moved him westward to his leopard to Bangkok, Thailand.  
There Ho Chi-Minh founded,

He Chi-Minh is a highly Sovietized Oriental turned hanger-on. His father was a native of the French colony of Indochina, and for the French. The beastly son was a looter and assassin sought by the police. Murder charges were dropped, but the government would recognize this man as an old friend. He's brother and sister were jailed for revolutionary disorders but released. He put up as a seaman on a French ship, then joined the Indochinese communist party. After two years of brain-trusting red demonstrations, sabotage, assassinations, etc., he was arrested, sentenced to 15 years in jail, and then finally expelled from Thailand. So the Kremlin sent Ho back to Canton, and by the red revolution, he was back.

He transformed the Indochinese communist party into the so-called "League for Viet Nam Independence" and merged on the "Democratic Republic of Viet Nam" and "Democratic Republic of Viet Nam" off communist op-

We traveled to England, then to France and Germany. Finally, Ho showed up here, where he lived most of his life. He had come to find jobs in Baltimore and Boston. Then he worked as a photographer's assistant in Paris and began writing for French communist newspapers. The iron-fisted central committee of the French communist party sent this red leopard to Moscow to be drilled in the subversive work. Moscow planned for him in Indo-China. Ho never in his life closer to the soil than John Dillinger, the German-born assassin who later fled to the Moscow "Kristenstern" concave, an international peasant front of

the communist party. The Kremlin masters trained Ho for two years and then dispatched him to Canton as a "language" interpreter, siding the Russian chief, Borodin. Today Ho Chi-Minh boasts about the real purpose for that assignment: Moscow sent him to assassinate Chiang Kai-shek. With this crime flaming in his mouth he set about organizing communists to seize power after Chiang was killed.

Chiang, however, expelled all communists — including the

Poland and India.

In short, we again were a nation that first shakes its fist, then shakes its finger, and then shakes its head. Presidential Representative Averell Harriman even stated at Geneva, "Los isn't too important, after all."

As a result, Russia and North Vietnam already have fallen. Cambodia has been neutralized effectively and — strategically — so has Thailand.

Since living under a ~~swamp~~ pays off in disaster when you uphold a red leopard has changed its spots.

Answer: Pass - Pass

**Shows Nation's Editors See Nixon as Republican Choice**

WASHINGTON, May 1 (NEA) — A poll taken across the country by the National Editors Association shows that Richard M. Nixon is the likely winner of the 1964 Republican presidential nomination at San Francisco.

The verdict drawn from a poll taken by Newspaper Editors Association among its 1,200 members shows that Nixon is the favorite of 44.3 per cent of the editors. The second choice is Barry Goldwater at 23.3 per cent. The third choice is Hubert H. Humphrey at 13.3 per cent. The fourth choice is Lyndon B. Johnson at 10.3 per cent. The fifth choice is Walter Jenkins at 4.3 per cent. The sixth choice is Eugene McCarthy at 3.3 per cent. The seventh choice is George Wallace at 2.3 per cent. The eighth choice is Hubert H. Humphrey at 1.3 per cent. The ninth choice is Barry Goldwater at 1.3 per cent. The tenth choice is Richard M. Nixon at 1.3 per cent.

**Orientation Meet Held by T.F. Jaycees**

New members of the Twin Falls Jaycees attended an orientation meeting Thursday night at the home of Harold Grigg, Twin Falls chapter president. Local officers assisted Grigg in explaining the organization and purpose of the Jaycees.

Two new members, Michael Dugger and David Wright, were introduced. Jack Logan presented the "Speak up, Jaycees" program, which consisted of extemporaneous speeches given by Larry Halstead, Donald Matthews, Loren McCoy, Donald Barton and Ronald Hamilton.

Jack Peronius was elected sergeant-at-arms. John White reported on the cleanup project at the Easter seal clinic conducted in cooperation with the Twin Falls Jay-C-Ettes.

Guests included Donald Knutson, Duane Clark, Rex Venter, all Twin Falls; Jack McCallister and Robert Malberg, both Burley; and Gary Toni Tongish, Mountain Home, who presented a traveling trophy to Grigg.

**Orientation Meet Held by T.F. Jaycees**

The editors who took Lodge the winner for the No. 1 spot are rather well sprinkled about the nation. Scantlin draws half his third place status from the Midwest.

Almost three quarters of the responding editors say their newspapers have not and will not endorse any candidate for the nomination. Most of these never do. Some 20 editors say their papers usually do endorse but will not this time.

Of the editors whose newspapers either have endorsed or may do so, 42 per cent have given their approval to Barry Goldwater. No other candidate has more than a mere handful of endorsements. The endorsing list includes 10 newspapers which usually do not make a choice at this stage.

Curiously, about one-third of the editors whose papers have endorsed Goldwater think Nixon, Lodge or Scantlin will turn out to be the actual nominee. Only a few editors volunteer

**37th Time**

BELVEDERE, Calif., May 1 (AP) — Police booked Bert Klain, 31, on charges of assault and battery again Thursday, for the 37th time since August, 1959.

Each time, Klain has been booked on a citizen's arrest made by his wife, Eleanor, who has never pressed the charge.

**Nevadan Offers Plan for Halting Silver Shortages**

WASHINGTON, May 1 (AP) — Sen. Howard Cannon Thursday offered President Johnson a seven-point plan designed to halt the growing shortage of silver coins, including the new "silver dollar."

The recommendations included a study of a possible subsidy for domestic silver mines, possible reopening of "mines" at Carson City and San Francisco, and lowering of the silver content of coins.

In a message to the President, the Nevada Democrat outlined the causes and effects of the shortage and criticized the "unhurried and casual approach" being taken by the executive department. He warned that the shortage could adversely affect a large segment of the economy.

Cannon proposed:

- Insure adequate stockpiling of coinable metals for future consumption by the Treasury.
- Undertake a thorough study of the long-range effects of action by the Congress to lower the silver content of coins.
- Initiate plans to utilize the fullest coin production capacity of private enterprises, under strict federal supervision, to

**VFW at Buhl Wins Contest On Book**

BUHL, May 1—Buhl Veterans of Foreign War, Thurston Post 3604, won first place in the state VFW community service scrapbook contest. It was announced today by William B. Hoppe, Buhl community service state chairman.

Outstanding community projects listed in the prize-winning scrapbook, are the flag display program, the memorial book project, and the youth program, whereby the post home is available to youth groups for their meetings and parties.

The Emmett post placed second in the state contest. Both the Buhl and Emmett scrapbooks are being sent to Kansas City, Mo., for further judging.

The Buhl post placed third in the event, which included a total of 12 entries.

Judges were a panel of non-VFW members and included the Rev. Dale K. Olson, Warren Saunders and Milo Davis, all Buhl.

# News Around Idaho

## ho BPA nager Is eaker Here

**BOISE, May 1 (AP)—**Idaho's only Republican officeholder, said Thursday he will vote to reauthorize his second term. Governor Scott, who served in the legislature from 1957 to 1962 before taking the job for the state, was in the 1962 primary. He was tax chairman in 1961 when the house passed a sales tax which lost in the senate. Scott, publisher of an opinion weekly here, said criticism has not dented the economy of Pocatello and Idaho.

**BOISE, May 1 (AP)—**The department of public works has named for bidding for construction of the old dining hall at Idaho State university and installation of a fire detection system at the school for the Deaf and Blind in Gooding. A bid of \$3,470 by the Parrish company, Pocatello, was the lowest of six to destroy the dining hall. Fire Protection Service, Burley, bid \$20,875 to install the detection system.

**BOISE, May 1 (AP)—**Another revenue source would have to be found before Idaho could repeal its inventory tax, says Gov. Robert E. Smylie. He said repeal, urged by Secretary of State Arnold Williams, is a "taxpayer's dream." The inventory tax, which has been a subject of study at every legislative session since 1947, but it is not clear when it would be repealed. Williams said the tax is a "major barrier" to the state's economic growth. He cited the inquiry of a Denver publisher who said he wants to move to Idaho, but dislikes the inventory tax.

**BOISE, May 1 (AP)—**Two Ada county house members say they favor special session of the Idaho legislature to take up the state's financial affairs and enact a sales tax. W. Larry Mills and H. Dean Summers made the remarks at a Republican meeting in Boise. Four other Republican Ada county incumbents joined in endorsing a sales tax.

**BOISE, May 1 (AP)—**California has filed a writ of habeas corpus on Idaho's behalf to free a number of prisoners from the state's prison system. The writ was filed by the California Department of Corrections, which says the prisoners are free of disease. Dr. A. F. Schepert, director of the state prison, said the writ was filed to free prisoners who were taken after the state was declared a "disaster area" because of the earthquake. The writ was filed in the federal court in San Francisco.

**BOISE, May 1 (AP)—**Idaho First National Bank President William E. Irwin Thursday announced the retirement of J. R. Field, vice president and trust officer in the bank's head office. Field, who has been with the bank since 1934, will assume the duties of the trust department. Field, a graduate of the University of Idaho, began his banking career with the Boise Trust company in 1934.

**BOISE, May 1 (AP)—**The Idaho supreme court has ruled that a lawsuit by the Idaho Potato Commission against United Fruit Co. is barred by the statute of limitations. The suit, which was filed in 1961, sought damages for the loss of a shipment of potatoes. The court ruled that the suit was barred by the statute of limitations, which is two years for a contract dispute.

## Controlled by K.H. Grange

KING, May 1.—The K.H. Grange, a national organization of farmers, has been in control of the state of Idaho since 1933, according to a report by a former member of the organization.

The report, which was obtained by the Idaho Statesman, states that the K.H. Grange has been in control of the state since 1933, and has been in control of the state since 1933.

The report, which was obtained by the Idaho Statesman, states that the K.H. Grange has been in control of the state since 1933, and has been in control of the state since 1933.

## Businessman Charged With Swindling

NEW YORK, May 1.—The general manager of Mainbocher's fashionable Fifth Avenue dress store was accused yesterday of swindling the firm of \$227,000 to indulge his passion for boating.

The charge was made by Arthur Keller, 42, came to light after a bitter custody remark to a Mainbocher's accountant that he had just received the firm's latest financial statement.

"That's funny, we haven't heard it yet," replied the accountant. An investigation followed.

Keller, Mainbocher's general manager for 15 years at \$25,000 a year, was charged with \$25,000 state supreme court, indictment with larceny, forgery and filing false statements from early 1967 to last January.

Assistant District Attorney Newman said most of the money went for boats, and that Keller started with a small one and worked his way up to the yacht in 1969.

The indictment charged the man began when Keller let checks to himself totalling \$110,000, forging on them the names of company president Main R. Bocher and treasurer L. Douglas Polard.

To cover the thefts, Newman claimed, Keller used Bocher's life insurance policy and saving account records to borrow \$55,000. He also was accused of forging Bocher's signature to sell stock worth \$100,000.

This money was deposited in Mainbocher's corporate account with the Park Avenue branch of the Bankers Trust company.

On another occasion, Newman said, Mainbocher's board of directors authorized the borrowing of \$150,000 and Keller increased the amount to \$355,000. The \$205,000 difference also was put in the Bankers Trust account.

Thus, said Newman, Keller had put back on paper at least more than was originally taken.

## No Snow

FAIRFIELD, May 1.—Ranger Earl McQuillan and Leo Senften, Camas county soil technician, report there was no measurable snow this week at the old weather station, near the intersection of about 10 miles north of Fairfield. This is the course they have been measuring this winter.

WHITE HOUSE ROYALTY is Luel Barnes Johnson, reigning monarch of the annual Shumacher Apple Blossom Festival, arrived at a ball in her honor Thursday night with an over-the-shoulder hair-do, and minus her crown. She had been crowned in afternoon ceremonies with her father, President Johnson, in attendance. (AP Wirephoto)

## Speeder

BARNSTABLE, Mass., May 1.—Ralph Dounoparts, 63, West Yarmouth, pleaded guilty in district court to a speeding charge and was fined \$20.

His explanation as to why he passed a state police cruiser at 80 miles an hour in a 60-mile-an-hour zone was:

"I had to go 80 because the cruiser wouldn't slow down to let me pass him at 60."

## Rafael Trujillo's Mother Dies in Miami Hospital

MIAMI, May 1.—The 100-year-old mother of Rafael Trujillo, Dominican Republic dictator, who was assassinated three years ago, died at a hospital here Thursday.

Mrs. Julia Trujillo died shortly after midnight at Baptist hospital.

Her son was assassinated May 30, 1961, at Santo Domingo. After the slaying, several family members, including the mother, fled to Miami to live.

## Slide Is Almost Cleared From Idaho Highway

LEWISTON, May 1.—State highway officials here said it will be at least a day or Monday before all debris is cleared from the slide that blocked the Lewis and Clark highway east of here April 16.

"We'll be down to the pavement Saturday or Monday" but it will be at least 10 days before all debris is cleared, William Smith, district highway engineer, said Friday.

Traffic has been maintained on a short-cut detour built over the slide.

Smith said the slide will probably cost the state about \$25,000 to clear.

"That's \$1,200 a day," he said.

## Two-Factors Prevent Oil Shale Development

GOLDEN, Colo., May 1.—An oil company official said Thursday two factors—an uncertain petroleum import policy and a discriminatory tax regulation—are responsible for preventing commercial development of the vast oil shale deposits of the Rocky Mountains.

Harold K. Carver, an engineering associate for the Union Oil company of California that pioneered in oil shale experiments, said would-be oil shale developers must be assured of a "stable economic environment" and fair competitive circumstances.

Carver addressed the Colorado School of Mines Oil Shale symposium called to discuss all phases of the as yet dormant resource that is expected eventually to establish vast new industrial empire in a sparsely populated part of the Rockies.

An estimated 1.5 trillion tons of petroleum are locked in the shale reserves underlying northwest Colorado Southwest Wyoming and northeast Utah.

Carver said that current regulation setting a 15 per cent tax depletion allowance for mined oil shale puts it in an impossible competitive position against crude petroleum, which gets a 27 1/2 per cent depletion.

"It is probable that a large oil shale plant would have to be in operation if tax treatment had been made equivalent to that afforded conventional crude oil production," he said.

Carver said the industry also needs more protection against the possibility of unlimited import of foreign petroleum.

Earlier Thursday, delegates heard a disappointing survey of the immediate future of oil shale from Assistant Secretary of Interior John M. Kelly. Kelly said future economic considerations—domestic and foreign—will be resolved before the government goes ahead with proposals to reopen its Anvil Points Oil Shale Research center, a pilot plant west of Rifle, Colo.

The Colorado School of Mines Research foundation has been waiting for months for approval of its plan to reactivate the plant, idle since 1955, under contract to at least two private firms—Soco-Mobil and Humble Oil and Refining.

Kelly said it is not the government's fault oil shale development has not reached the commercial stage, but agreed on Friday's program are expected to take an opposite view.

Rep. Wayne N. Aspinall, D., Colo., chairman of the house interior committee who represents the Western Slope district that stands to benefit most by an oil shale industry, has entitled his address, "Oil shale development handicapped by government inaction."

More technical discussion, but in a similar vein, is expected from three members of Colorado Gov. John A. Love's Oil Shale Advisory committee, which has been pressing government agencies and private industry hard for decisions that would end the long wait.

# Filer Chooses Boys' Staters

**FILER, May 1**—Delegates to the Filer State to be held in Boise June 7-11 have been selected by a committee from the Filer, Idaho club and American Legion, from whom they will receive financial sponsorship.  
They are Darrell Yoder, son of Mr. and Mrs. William Yoder, and Terry Shaff, son of Mr. and Mrs. Edward Shaff.  
Yoder is newly-elected student body president of the local Future Farmers of America chapter and reporter for the south Magic Valley district. He was district FFA public speaker winner this spring.  
He is also a member of the National Honor society, Key club, Beta League and is president of Filer's Lutheran Welfare League and some president of Magic Valley Walther League.  
Shaff is a member of The Plains, National Honor society, senior counselor in the West End chapter of Delta Epsilon, and third superior on state level.  
He has been in 4-H club work for eight years and is active in the Presbyterian church youth group.

# Skeleton of Boy Is Found In Florida

**VENICE, Fla., May 1 (AP)**—The skeleton of 7-year-old Lewis Williams was found in a cemetery in Washington today in a continuing investigation into the activities of accused boy abductor Joseph Francis Bryan, Jr.  
The skeleton was found in a ruttenhake-infested field about five miles south of here Thursday by a search party of 75 men after FBI agents traced Bryan's movements to this area.  
Bryan, a former convict and mental patient, is in custody in New Orleans, where he was captured Tuesday. With him at the time was 8-year-old Dennis Burke, Humboldt, Tenn. The boy was unharmed.  
The 25-year-old Bryan was quoted by authorities when he was put on the FBI's 10 most wanted men list as saying he likes "to see young boys tied up and screaming."  
He is charged with kidnapping 10-year-old John David Robinson, Mount Pleasant, S. C., February 27. The Robinson boy's skeleton was found March 31 in a pig-fence swamp near Hallandale, Fla.

# Utah-Idaho Baptist Office Is Opened in Twin Falls

Headquarters for the Utah-Idaho Baptist convention has been moved from Salt Lake City, where it was located for 30 years, to Twin Falls.  
The headquarters is located in the old Episcopal manse, 187 Elm Street, southward north, and will serve for administrative and church work for the American Baptist churches.  
Robert J. Smith, Salt Lake City, has been appointed as executive secretary of the headquarters and will move to Twin Falls shortly. The Rev. Gaylord Hasselblad will serve as area director of Christian education for the two states.  
Lorna Holmes will serve as Christian educational director and associate in Christian education. Mrs. Holmes moved from Salt Lake City this week.  
The headquarters was located in Salt Lake City when Montana was combined in the convention with Idaho and Utah. Since Montana acquired its own convention headquarters, Twin Falls was selected as location of the headquarters.  
An open house and dedication ceremony will be held later.

# Names of Juveniles to Be Published

**BLACKFOOT, May 1 (AP)**—Names of juveniles who are referred in probate court here, and names of their parents, will now be published.  
Probate Judge Winston Benson declared "When juveniles come before me I hope to keep them from breaking the law again, but if they persist in breaking the law they must suffer the penalty."  
From now on, Benson said, second offenders and such will have their names and their parents' names published.  
The judge had released the names of juvenile offenders on previous occasions when they were involved in the more serious crimes.  
The present court policy here comes on the heels of a rash of store and home burglaries which involved some 15 juveniles in nine cases. Some of these were involved in from six to nine burglaries and also had long arrest records for petty violations.

# Offering Set for Quake Victims

**DARWIN YODER**... Filer's delegates to the Gem Boy State to be held in Boise June 7-11... are sponsored by the Filer... and the American Legion. Yoder is the son of Mr. and Mrs. William Yoder, and Shaff is the son of Mr. and Mrs. Edward Shaff.  
All proceeds will be sent to the Rt. Rev. William Gordon, bishop of Alaska, for assistance of the Epiphany church at Valdez, where destruction to the church, parish hall and rectory amounted to about \$60,000.  
The presiding bishop's fund for world relief of the Episcopal church in the United States is \$5,000 emergency aid to Alaska just after the earthquake.

MR. AND MRS. JAMES B. WHITEHEAD

### Grace Ann Beal, Whitehead Say Wedding Vows

Grace Ann Beal, daughter of Mr. and Mrs. Olive E. Beal, Lehi, Utah, exchanged nuptial vows with James B. Whitehead, son of Mr. and Mrs. M. L. Whitehead, Twin Falls, March 28 in the Salt Lake City LDS temple. Parents, family members and close friends were in attendance. President Willard R. Smith performed the ceremony.

The bridegroom's parents hosted the wedding breakfast at the Dool House. A reception was held in Lehi, Utah, where the bride and groom were joined by a large wedding party. The bride wore a white gown with a long train and a large veil. The groom wore a dark suit.

The bride's mother was seated at the head of the table. The bride and groom were seated next to each other. The wedding party included bridesmaids, groomsmen, and flower girls. The ceremony was held in a large, ornate temple.

# 1964 Might Be Record Year for Steel Companies

NEW YORK, May 1 (AP)—The nation's 16-million-dollar steel industry, biding its time in the doldrums since 1952 and 1953, is brimming with optimism.

Production is at a gallop. Major producers report first-quarter profits up in many cases 50 to 100 per cent from a year ago. There is no sign of a serious labor dispute.

Edmund F. Martin, board chairman of the second-ranking firm, Bethlehem Steel Corporation, told newsmen 1964 might prove a record year for steel companies.

"The main threat to tranquility, a federal indictment charging eight big steelmakers with price fixing in 1955-61, has been dropped."

Martin was the first top executive to publicly acknowledge the prospect. Others, while solidly optimistic, cautiously have skirted clear of direct comparisons involving the 1964 outlook.

"Mill operating rates have climbed slowly but steadily since last August. Now, steel is being poured at an annual rate of about 128 million tons."

Two more major firms checked in Thursday with glowing profit reports. Bethlehem, with a 47 per cent gain from the 1963 year.

U. N. DAY SET

WASHINGTON, May 1 (AP)—President Johnson issued a proclamation Thursday setting aside next Oct. 24 as "United Nations Day," and calling upon Americans to demonstrate their faith in the world organization.

Laughlin Steel corporation, with a 62 per cent gain.

Martin observed that the year-1963 to a 15-year low.

Mill operating rates have climbed slowly but steadily since last August. Now, steel is being poured at an annual rate of about 128 million tons.

Two more major firms checked in Thursday with glowing profit reports. Bethlehem, with a 47 per cent gain from the 1963 year.

## Cushing Is Guarded by Policemen

BOSTON, May 1 (AP)—Norwood police provided a heavy guard for Richard Cardinal Cushing during a visit to St. Catherine's Church Thursday night but both police and the cardinal later denied reports a threat had been made on his life.

Police Chief James M. Murphy, summoned from a town meeting, escorted the archbishop of the Roman Catholic archdiocese down the aisle along with four officers and provided two police cars to escort him back to Boston.

The cardinal called reports of threats "a lot of nonsense."

"When I go out there," he said, "Murphy always gives me a ride home."

Murphy also insisted there was no special cause for the police guard.

Initial reports of the threat said it was received by the Rev. Francis J. Delaney, a curate at St. Catherine's. However, Father Delaney denied receiving a telephone threat.

## Rites Honor Area Woman

HOVERMAN, May 1—Funeral services were held for Mrs. Mable Ann Thompson Wednesday afternoon in the St. Ignace Catholic church by Bishop James McMan.

Music and prelude music was played by Hanna Akers, who also accompanied a quartet, Mrs. Nels Anderson, Mrs. Joe Anderson, Mrs. E. J. Anderson, and Mrs. George Palmer, which sang three songs.

The obituary and sermon were given by Emerson Pugmire. Bishop McMan gave the invocation and Stanley Penfold, the benediction. Jack Allen dedicated the grave. Flowers were arranged by members of the Hagerman LDS Relief society.

Active pallbearers were Sylvan Clark, Jack Martin, William McKay, Morris Smith, Merle Owsley and Carroll Condit. Honorary pallbearers were Roy Potter, Charles Montrose, J. W. West, Albert Ordley, Don Durfee, O. B. Smith, Edward Owsley, M. E. Roberts and Charles Cary, Jr.

Condolence letters at the Hagerman cemetery.

## Most Students At BYU Are Not Utah Residents

SALT LAKE CITY, May 1 (AP)—More than 60 per cent of the students at Brigham Young University are not local residents of Utah, according to the director of the Utah coordinating council of higher education.

The official Dr. Arthur D. Browne said the statistic is part of a survey by Utah's colleges and universities to study the problem of increased enrollments and limited financial support.

In a report Thursday to the council, Dr. Browne said the percentage of non-resident undergraduates in higher educational institutions in the state has increased to 41 per cent this year.

He also said the percentage of non-resident women students has increased to 41 per cent this year.

Two-thirds of the out-of-state students come from the six western states, Dr. Browne said, but there were students from all 50 states and 1,378 students from foreign countries.

## Last Rites Held For Mrs. Titus

BURLEY, May 1—Funeral services for Mrs. Hazel Mae Titus were held Wednesday in the Joseph Payne Memorial chapel by Rev. C. Paul Moore, Rupert Christian church.

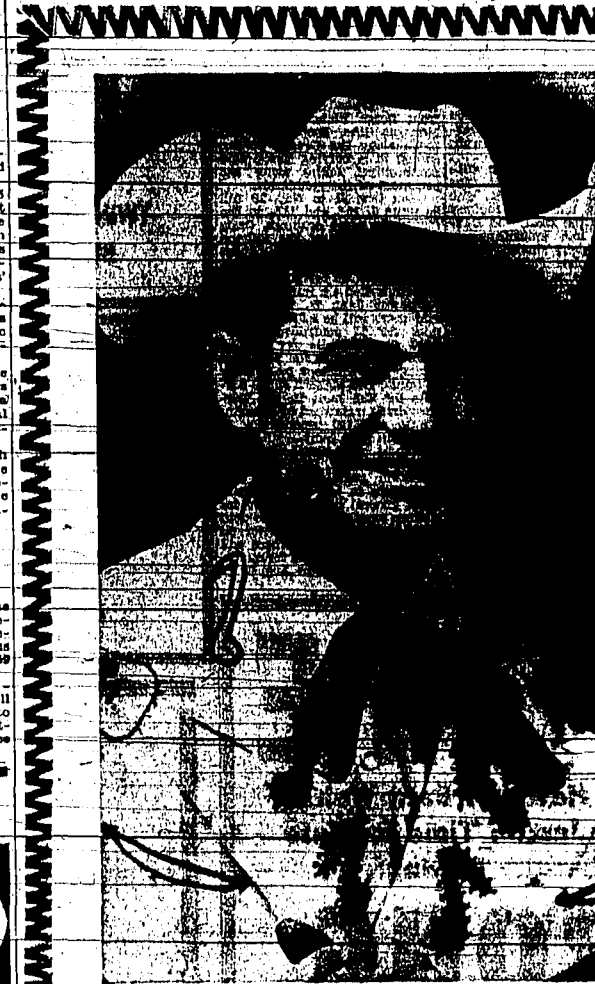

Benny Burgett, soloist, sang two selections accompanied by Mrs. Gail Wolf. The obituary and a poem were given by Cecil Smith.

Pallbearers were Charles Platts, Stanley Crawford, Glenn Clark, Albin Brown, Earl Brower and Adolph Koeh.

Funeral services were held in the Paul cemetery.

NEW DUAL OIL WELL

PITTSBURGH, May 1 (AP)—Gulf Oil corporation announced it has completed its first dual grooved offshore area of the Niger river delta in Nigeria.

## Soviet Union Sells Mansion

NEW YORK, May 1 (AP)—The Soviets have sold the Park Avenue mansion from which Premier Khrushchev made vigorous balcony speeches during his 1959 visit to the United Nations.

The four-story, Georgian style building at 44th street will be torn down with others to make way for a 31-story apartment house. The selling price was not revealed.

# And Northern Dancer Are Favored in Kentucky Derby Saturday

LOUISVILLE, Ky., May 1 (AP)—Hill Rise, the pride of California, and Northern Dancer, Canada's hope, ruled as favorites today among the dozen 3-year-old thoroughbreds entered for the 90th running of the \$125,000-added Kentucky derby. Pre-emptive odds were Hill Rise at 6-5 and 5-2 on Northern Dancer. Far behind, in the second place, were Quindangle and The Soundrel, each 8-1. Cloudy Skies and a temperature in the 60s are forecast for Saturday's race. The track should be in good shape despite rain the early part of the week. A crowd of about 100,000 is expected.

**Canceled**  
A baseball doubleheader between Twin Falls and Portland was canceled Friday afternoon because of rain. The game was scheduled for Thursday night and Friday morning.

**Phils Outlast Cincinnati For 3-1 Win**  
CINCINNATI, May 1 (AP)—The Philadelphia Phillies scored two runs in the eighth inning to outlast the Cincinnati Reds 3-1. The Phillies' victory was the first since May 1, 1944, when they won 3-1 over the Reds.

**Portland May 1 (AP)—**Portland, Ore., was the site of a baseball game between the Portland Beavers and the Seattle Rainiers. The Beavers won 3-1. The game was played at the University of Oregon stadium.

## Patton Gains Golf Meet Quarterfinals

PINEHURST, N. C., May 1 (AP)—Billy Joe Patton alternated erratic and spectacular shots Thursday to lead the way through the quarter-finals of the North and South amateur golf championship. The 42-year-old Morganton, N.C., Walker cup veteran eliminated Frank Strafaci, Miami, Fla., 1938-39 winner, 8 and 2, to place Bob Allen, runner-up last spring, and two other professionals, Wayne Jackson and Dale Morey, into the semifinals.

**Bowling**  
PORTLAND, May 1 (AP)—Portland, Ore., was the site of a bowling tournament. The winner was [Name].

## REMEMBER WHEN?

By BOB REESE  
It began on a Thursday morning in October, or several days before, there had been heavy selling and severe losses in the stock market. But on the morning of October 24th, the bottom dropped out of the market. Panicky crowds gathered outside of the dimly lit Stock Exchange Building in New York, on famed Wall Street, that morning. The big bankers of the nation came to the rescue of the market that day, and the avalanche of selling was temporarily stopped.

# And Northern Dancer Are Favored in Kentucky Derby Saturday

LOUISVILLE, Ky., May 1 (AP)—Hill Rise, the pride of California, and Northern Dancer, Canada's hope, are the favorites today among the dozen 3-year-old thoroughbreds entered for the 90th running of the \$125,000-added Kentucky derby. Pre-race odds on Hill Rise are 6-5 and on Northern Dancer 3-1. Behind, in the order of the handicappers, are Quadrangle and The Scoundrel, each 8-1. Cloudy skies and a temperature in the 60s are forecast for Saturday's race. The track should be in good shape despite rain the early part of the week. A crowd of about 100,000 is expected.

Post time is 4:30 p.m. EST. CBS will televise the festivities from 3 to 5 p.m. The radio broadcast is from 4:15 to 5 p.m.

If all 12 colts start the purse will aggregate \$155,800 and the winner will receive \$114,000. It costs \$1250 just to go to the post in addition to the \$250 entry fee and \$100 to nominate.

Back of the four favorites, though, are the other 8 colts. 10-1, Mr. Brick 15-1, Dandy K. and Will Rad 20-1, and Mr. Moonlight 25-1. The Scoundrel, 8-1, and Extra Swell, all 30-1.

Post positions do not mean much because of the five-eighths mile straightaway. In the starting gate to the first turn, but Northern Dancer's trainer, Horatio Luro, got exactly what he wanted when he drew No. 7. Hill Rise is next to the outside in No. 11.

Mr. Brick got the inside position. Quadrangle No. 2, Will Rad No. 3, Extra Swell No. 4, Mr. Moonlight No. 5, The Scoundrel No. 6, Ianhookah No. 8, Dandy K. No. 9, Royal Shuck No. 10 and Roman Brother No. 12.

This undoubtedly will be the best second-year derby ever. The nation's top jockeys have played musical saddles with a vengeance.

Bill Shoemaker, who rode E. P. Taylor's Northern Dancer to victory in the Florida derby, will be on Hill Rise.

Bill Hartack, who won the Wood on Quadrangle, will be on Northern Dancer. Manuel Yonca, who has previously ridden Roman Brother and Northern Dancer, will be on The Scoundrel. Bobby Haskins will be on Quadrangle.

A Canadian-bred horse never has won the Kentucky derby. Northern Dancer was foaled at the National Stud farms at Ontario, Ontario. Nearctic is his sire and Natchez his dam.

Bill Hartack, who won the Wood on Quadrangle, will be on Northern Dancer. Manuel Yonca, who has previously ridden Roman Brother and Northern Dancer, will be on The Scoundrel. Bobby Haskins will be on Quadrangle.

In 14 starts he has won 11, finished second twice, and third once, and earned \$280,572.

Hill Rise is owned by George A. Pope of the El Peco Ranch, Madras, Calif., and trained by Bill Finnegan. Hill Rise is the sire and Red Curtin his dam.

His record is eight firsts and two thirds in 10 starts, with \$105,919 in prize money.

When he won Tuesday's derby trial in the excellent time of 1:35 1/5 people began to talk of him as a potential winner of the Preakness and the Belmont in addition to the derby.

His record is eight firsts and two thirds in 10 starts, with \$105,919 in prize money.

His record is eight firsts and two thirds in 10 starts, with \$105,919 in prize money.

It was the fifth straight triumph for the Soviet girls in the championship round and increased their point total in the standings to 10. Bulgaria defeated Brazil 60-40 in the opening game of the night's doubleheader and tied Czechoslovakia for second at seven points.

The Americans and Yugoslavians are tied at six followed by Brazil with five and Peru, in last place, with four.

The U. S. ladies trailed only 30-17 at halftime, but tired in the second half and the Soviet girls turned the game into a rout.

## Patton Gains Golf Meet Quarterfinals

PINEHURST, N. C., May 1 (AP)—Billy Joe Patton alternated erratic and spectacular shots Thursday to lead the way through the quarter-finals of the North and South amateur golf championship. The 42-year-old Morganton, N.C., Walker cup veteran eliminated Frank Stracali, Miami, Fla., 1958-59 winner, 3 and 2, to place Bob Allen, runner-up last spring, and two former professionals, Wayne Jackson and Dale Morey, into the semifinals.

Jackie, 29-year-old from Hampton, Va., took the last two holes from Dave Boyd of Atlanta to win 2 up and move to an 18-hole match against Patton Friday morning.

Allen, 35-year-old West Hartford, Conn., sales representative of a company that manufactures precision springs won four straight holes on the front nine and went on to beat DICK Siders, hardware salesman from High Point, N.C., grabbed the first two holes from Pat Foy-Brady, Raleigh, N.C., and with the help of Brady's errant putter, went on to a 7 and 6 victory.

Allen lost to Patton 7 and 6 in last year's finals as the Tar Heel lumberman won the title for a third time and second year in a row.

Allen and Morey each shot one under par golf. Patton was two over and Jackson four over in their tours of the No. 2 course of the Pinehurst Country club, Jackson had 14 pars, the other winners nine each.

Pulled from a bumpy putter that failed to ball him out as it had earlier in the week, Patton the first and third holes against 48-year-old Stracali. But a six-foot birdie on the fourth and a par on No. 5 got him even.

A fine par on No. 7 put him ahead as he knocked in a 12-foot putt after overhauling the green and running the ball up short with his putter. A par on No. 12 put him 4 up.

Patton's victory was a surprise. He had never won a tournament before. He had never won a tournament before. He had never won a tournament before.

153,252 Winner  
Cashier Ticket  
WESTBURY, N.Y., May 1 (AP)—The victory winner of a world record \$132,327 twin double final, put in an appearance Thursday at Roosevelt racetrack to claim the prize.

He turned out to be Michael

horse owner, who will share the money with six other persons. With Sherman as he cashed in the ticket were three of his six partners in the betting venture—Joseph J. Baker, John W. Baker and William L. Brennan, Jr.

It was Brennan who actually bought the winning ticket at Roosevelt Tuesday night.

Remember the year?  
A lot of Americans gambled that year—and lost. But strangely enough, when a man bought a car in those days, he figured he couldn't afford to gamble. He hopped for the car that was the best buy, and the dealer who would give him greater savings.

The year was 1929.

A lot of Americans this year have discovered that the new Imperial is today's best buy, for beauty, value and performance. And you'll discover your "best buy" on a new Imperial when you check our deal at Bob Rege Motor Co., 500 Block 2nd Ave. So. Twin Falls. Phone 733-5776.

Investor

**By WILLIAM A. BOYLE**  
Q. In the event of my death, my mother would inherit everything I leave. This would consist of proceeds from my insurance, my savings, and stocks. I would like to know if I could make a will that would allow my mother to inherit everything I leave, but I would like to keep the insurance proceeds for my family. A. This is a common question, and the answer depends on the specifics of your situation. Generally, a will can be drafted to specify the distribution of your assets, including insurance proceeds, upon your death.

# Blaine Demo Candidate Slate Announced

**HAILY, May 1** — A party complete slate of Democratic candidates for Blaine county posts is assured, party officials reported today after a meeting of the county central committee meeting in the courthouse Tuesday night.

W. O. (Johnny) Pyrah, Ketchum, announced his candidacy for the state senate post and J. M. (Bud) Seachok, Carey, announced he will be a candidate for state representative.

Jack Reimach, Ketchum, and Ray Sweet, Carey, commissioners for the third and first districts respectively, both said they will file petitions for reelection.

**New Postoffice Dedication Set**

**SALMON, May 1** — A new postoffice building in Salmon will be dedicated Saturday by Rep. Condon L. White, Jr., D. Ida.

Erected by private firms at a cost of \$48,000, the building will be leased by the federal government for \$4,000 annually.

including V. K. Jeppeson, prosecuting attorney; J. M. Elchert, probate judge; Frank Hewitt, sheriff; Floyd Wilson, assessor; and Mrs. Dorothy L. Devey, treasurer, indicated they will file for reelection.

Announcing their candidacy for precinct committeemen were Ira Hoffman, Haily, precinct one; Holger Abrahamson, Haily, precinct two and John Pyrah, Ketchum, precinct.

The meeting was conducted by Chairman Wayne Clark. Mrs. Dee Berry was named as state committeewoman. Clyde Sowersby, Ketchum, will continue to serve as state committeeman.

Clark, Pyrah, Esterholdt, Sowersby and Mrs. Berry were nominated to attend the Democratic state convention in Boise June 15.

The next meeting will be June 25.

**DAUGHTER IS RICHFIELD, May 1** — Oscar Johnson has returned from Concordia, Calif., where she had been called by the illness of her daughter, Mrs. William Augusting.

## Lady Astor Near Death In England

**LONDON, May 1 (AP)** — Nancy Lady Astor, the Virginia beauty whose tongue became the terror of the British house of commons, was reported near death today.

She is 84.

"My mother is sinking fast," said her son, the third Viscount Astor.

Relatives were called to her bedside at Crummock, near the Lincolnshire home of her daughter, Lady Ancester.

Lady Astor was the first woman to enter the British parliament — in 1919, as member for Plymouth.

"I love politics and I love a fight," she once said. "She had plenty of both."

Women's rights were her great crusade and drink her great aversion.

For 20 years the commons enjoyed her affectionate feud with Winston Churchill, no fervent admirer of feminism or prohibition.

## SUMMER SCHOOL BEGINS JUNE 9th

### — COURSES —

PRE-COLLEGE	CAREER COURSES	ADVANCED COMMERCIAL	Automation
Typing Shorthand (These skills give you a definite advantage in taking class notes and making reports)	Stenography Secretarial Bookkeeping Accounting & Business Administration Executive Secretarial	3 month course with 2 years typing and 2 years shorthand. # CACTUS PETE'S

JACKPOT, NEVADA

# Along Fences and Canals

Mr. and Mrs. C. H. Smith and family have moved to a new home on the farm of Mr. and Mrs. Barton Wilson, west of Hill City, where they will be employed. Smith has been employed by Mr. and Mrs. Harry Smith, Corral, for many years.

Rain and snow during the past week has kept Camas prairie farmers from doing much outside work except fixing fences. The ground is still too wet to work and there are patches of snow from drifts in many places. The road to Mormon reservoir still is closed.

Mr. and Mrs. Harry Smith, Corral, and Mr. and Mrs. E. L. Harrison, Hill City, have returned to their farms after spending the winter in Arizona. Mr. and Mrs. Harrison have returned to their Corral farm after spending the winter in Gooding. Some of the farmers have not returned yet from their winter quarters.

Mr. and Mrs. Wayne McCleary and family, Corral, Calif., have moved into the John Park rental house at King Hill. McCleary will work for his brother, Glenn McCleary, and to other farm work this summer. They have been visiting at the home of his brother, Glenn McCleary, and family.

Members of the Twin Falls Creek and Shoshone-Yield-Cattle associations began taking their range cattle to the range this week. They are about a week later than usual because of a later spring. There are 100 head in the two units. LaVaughn Sturgeon is the range man this year.

Bob Allen has been planting graft on his ranch south of King Hill. He has planted 10 acres on the former Ben Raymond ranch, which belongs to Mr. and Mrs. Allen.

Cattle were branded for E. D. Adkins, Shoshone, and Rupert. Colosheba Sunday and taken out to the District. Rupert, Colosheba, Gooding, and Alex Anshausel helped Rupert Sunday at his Murrey ranch.

An underground water pipe which carries irrigation water to the John Greer farm land south of the Snake river is obstructed and is unable to get water from the main ditch to his land for irrigation. The King Hill Irrigation district maintenance crew is working on the obstruction.

Many ranchers in the Almo area have been branding, shearing and vaccinating their range cattle in preparation for putting them in the summer range west and south of Almo.

Jerry Toms, state veterinarian from Jerome, has been in Almo the past week testing cattle for tuberculosis.

Almo farmers are pleased with the heavy snow which fell last night and measured between 18 and 24 inches. Some grain already planted before the storm and other land was being plowed and is in preparation for planting when the welcome moisture is deposited.

Deep snow by Robert Ward and Roscoe Ward, Almo ranchers, was buried last week at the Ward ranch. They report considerable loss of sheep because of the storm and cold weather immediately after the shearing.

Edward Jones, Almo, went to Brigham City, Utah, to get an inspection to assist with the ranch work this summer.

Mr. H. McCoy Jones, King Hill, has returned from Santa Fe, N.M., where she cared for business at the Gray Wood ranch in the "Valley of the Moon." While there she visited her daughter, Mrs. Bryant Doyle, Jr., and family.

Le Trail has finished planting approximately 40 acres of beets at his ranch in Pandemonium Valley. Other farmers in the valley who have finished their beet plantings are Donald Cornsman and Harold Le Slight.

Weight of snow during the winter has caused much damage to trees in the Richfield area. Pulled staples are the chief damage. The Veda Holt is having more than a mile of new fence put in in the West Markey ranch.

Mr. and Mrs. Mark Joyner have sold their farm west of Hill City to the Gene Grill family and have moved to Richfield, where they have purchased a ranch.

## Hiawatha Canal Waterusers Meet

HAILLY, May 1 — Waterusers of the Hiawatha Canal company, at their annual meeting Monday evening in the courthouse, set their annual budget at \$850.

Martin Young was reelected as chairman and Mrs. Frederick Poy as secretary-treasurer. The meeting was conducted by

Kenneth Buttram, chairman of the board of directors. John Dwyer was reelected as a director for a three year term. Buttram and Dale Minter are hold-over directors.

## Hog Cholera Peak Season Approaches

DES MOINES, May 1 — With the usual peak season for hog cholera outbreaks just ahead, farmers were issued a warning this week to have their pigs protected against this No. 1 swine killer while there is still time.

The only sure way to protect pigs against cholera is to have them vaccinated in advance of an outbreak, according to the warning by the American Foundation for Animal Health. Such vaccination is one of the key points in the current nation-wide drive to eradicate the disease.

The eradication drive has now reached a critical stage in some areas, and may soon reach that stage in others. If cholera can be wiped out in this country, it could mean \$5 million dollars or more per year of additional income to American farmers, says the foundation.

Several points of caution were cited in connection with vaccination. First, was the suggestion that farmers have a veterinarian inspect their pigs first, to determine whether they are in condition to receive vaccination. If they are not in condition they may not develop proper immunity. It was also suggested that selection of the type of vaccine to be used should likewise be left to the veterinarian, depending on the local situation and the condition of the herd.

PLANTING TIME IS under way on the Baller Creek project near Glenns Ferry. Some 3,750 acres of land will be put under cultivation during the first season of operation. Most of the land will be seeded to potatoes and barley. Irrigation will be a sprinkler system on water pumped over 600 feet from the Snake river.

## Water Lifted 625 Feet to Irrigate New Land on Silver Creek Project

GLENN'S FERRY, May 1 — Water lifted to a record height of 625 feet from the Snake river by giant electric pumps was applied for the first time last Friday to the new Baller Creek irrigation project, described at dedication ceremonies as an "encouraging example of individual enterprise at work."

The first water's application by sprinklers to the project, located on a high plateau south of Glenns Ferry, climaxed the ceremonies jointly sponsored by the Baller Creek Water company and Idaho Power company.

As some 250 visitors looked on, the water was raised to the project's underground pressurized sprinkler system on the plateau when a blizzard of praise erupted, the first of an initial six electric pumping units totaling 7,500 horsepower.

Pushing the button was Victor Johnson, Mountain Home, chairman, Minner county board of commissioners.

A public tour of the huge development followed the dedication, held at the project's pumping plant situated across the Snake from U. S. highway 30 some two miles west of here.

Some 3,750 acres are being irrigated by the water company this season, but it is expected that as many as 50,000 acres and acres in the desert area ultimately will be reclaimed.

This future development would require more than 30 big pumps similar to the project's initial six units, which alone use as much energy as 1,400 homes.

B. G. Miller, board chairman, Farmland-Idaho, Inc., Twin Falls, praised the many individuals who helped get the project started, saying "it's people who have made this a success."

Donald S. Bailey, Idaho Power vice-president for division operations, paid tribute to the project's developers as "men of initiative, ingenuity and sound engineering know-how working with private capital" instead of the taxpayer's money.

Calling the project an "encouraging example of individual enterprise at work," he labeled as "fallacies" the arguments that such undertakings are too large and too costly for private enterprise to undertake.

"There are those among us who say free enterprise is dead and only government can do the job," Bailey said.

Bailey said the greatest development in southern Idaho has been in the "private sector," pointing out that since the reclamation act's passage in 1902 individual enterprise has developed more than 1,600,000 acres compared with 476,000 acres by the federal government.

Snake river valley. Noble also was instrumental in opening up the Dry Lake development that lifts water about 600 feet from the Snake south of Nampa.

Explaining that water is distributed throughout the project's land by pressurized pipelines instead of open ditches, the manager said the "unique" underground system initially consists

of nearly 65 miles of main, main lateral and sprinkler lateral lines ranging from 36 inches to three inches in diameter. Pressure in the welded and coupled pipelines is maintained automatically by what has been called the "most sophisticated" control system ever installed anywhere.

The system anticipates water (Continued On Page 24)

Mrs. HARRIET THORNE, SHOONEE, May 1. — Loss in range cattle and other livestock, especially new calves has been considerable this winter and spring.

Farmers in North Shoshone are reporting having lost 10 to 25 per cent more animals from disease than usual during an average winter season. The causes of the loss vary somewhat, with some new diseases being the major factor.

However, the major factor is attributed to the long, hard winter. At any rate, as the weather mellowed up this spring, the losses ceased.

Over Kerner, North Shoshone, reports about a 20 per cent loss in his herd from scours. Clifford Goodman says his loss runs about 25 per cent in his herd, and Mac Gray reports a one-third loss of calves in his dairy herd.

Gray said he vaccinated his animals for leptos and this stopped the disease from spreading.

Donald Sandy said he had lost double the average loss, but there were none with scours this hard.

He said he knew he had hit his animals and he said the bad weather definitely helped the disease spread.

Alex Bilbaco lost around 20 per cent of his calves with scours.

He said he was not so much as sent to the Idaho Research laboratory, where it was reported nothing is effective against the bacteria.

Over Santiam he lost about nine per cent of his calves from various reasons rather than one particular disease.

8. M. Hall reports only a small percentage of loss. There were few with white eye and another few with scours.

Jack M. Murphy reported a bacteria type disease hit his herd, this develops when a calf flin; takes milk and creates a toxic poisoning reaction.

Murphy said his loss was 25 per cent of the new calves born.

Several different veterinarians did autopsies on the calves and found that the research laboratories have been working on the disease the past year. He had vaccinated last spring and fall for leptos as well as scours so, they were ruled out.

The Idaho experimental station has started an analysis but results have not yet been determined.

Murphy said he had consented to put his herd on a controlled experimental basis for feed and care, working with the Idaho Research laboratory. In examinations done thus far, it has been determined it is not the feed that has caused the disease, but the cold winter has had its influence.

Several other farmers have had about the average loss in their herds. They report, causes ranging from freezing cows laying on a hard north calf.

According to reports from the research laboratories and farmers, the toxic poisoning disease is in southern and northern Idaho, having originated in lower Montana and spread to most of the Northwestern states.

When a farmer loses a calf, it is estimated it takes three years to make up for the loss.

The farmers have purchased much more medicine than usual, some buying as much as \$20 at a time on an experimental basis.

M. R. Thorne, also North Shoshone, reports he had a loss of about 10 per cent of his new calf herd.

Dr. Paul Jacobson, Shoshone veterinarian, said the disease hit his calves in the same manner and those who are poor managers.

He, too, feels the weather seemed to be a contributing factor and he notes everyone had more trouble than usual.

The veterinarian said farmers who recognized an irregular symptom in their calves and treated it with drugs better results than those who waited. He estimates about three times as much was spent by the average farmer for medicine this past winter than usual.

In a few cases he said, the distasteful use of drugs has developed resistance in animals similar to human beings.

Dr. Jacobson said some human drugs had been used in an effort to find something new and in most cases they did help, but at an additional cost over the usual medication.

Dr. Jacobson said while scours often was the cause of trouble, the farmer who has had heavy losses, reports no scours in any of the animals in his herd. His system has been another major disease this spring.

Dr. Jacobson points out tests have shown when cows are dried over an extended period of time, they begin to show vitamin deficiency.

Green feed in good for them, but during the time they are being green fed, they build up a supply of vitamins that will usually run over a dry feeding period.

If this period goes on beyond the usual four months of winter feeding, there is a possibility the animals develop the deficiency and this can be a factor in causing some disease.

WITNESSES CONSIDERED

WASHINGTON, May 1 — American veterinarians are considering these to permit additional types of catalase preparation to be used in under consideration by the federal food and drug administration.

FEED SEEDS BEANS GRAINS

Serving Magic Valley 38 Years

WHEN A FARMER NEEDS A FRIEND, the friend may turn out to be quite a crew. Such an example of neighborliness was shown last week by a group of Tuttle Grangers, organized by Master Elmer Young, to help with the farm work of Mr. and Mrs. Ben Slatter in the shoestring community. Slatter is injured in an accident at the Gooding Livestock Commission company when a cow he was unloading kicked open the end gate a stock rack, hitting him in the head. He received a cut on one eye and was hospitalized with a concussion. Some 25 men including both neighbors and Grangers, put in a day plowing, harrowing, spreading fertilizer, planting and cleaning ditches. William Maude is shown plowing. (Times-News photo)

Murphy said his loss was 25 per cent of the new calves born.

Several different veterinarians did autopsies on the calves and found the Montana research laboratories have been working on the disease the past year. He had vaccinated last spring and fall for leptos as well as scours so they were ruled out.

The Idaho experimental station has started an analysis but results have not yet been determined.

Murphy said he had consented to put his herd on a controlled experiment basis for feed and care, working with the Idaho Research Laboratory. In examinations done thus far, it has been determined it is not the feed that has caused the disease and the last cold winter has had its influence.

Several other farmers have had about the average loss in their herds, they report, causes ranging from feeding the cows laying down the new calves.

According to reports from the research laboratories and farmers, the toxic poisoning disease is in southern and northern Idaho, having originated in lower Montana and spread to most of the Northwestern states.

When a farmer loses a calf, it is estimated it takes three years to make up for the loss.

The farmers have purchased much more medicine than usual, some having spent \$100 at a time on new experimental basis.

Mr. R. Thorne, also North Bledsoe, reports he had a loss of about 10 per cent of his new calf herd.

Dr. Paul Jacobsen, spokesman for veterinarians, said the disease is spreading to the good managers and those who are poor managers.

He, too, feels the weather seemed to be a contributing factor and he notes everyone has more trouble than usual.

The veterinarian said farmers who recognized an irregular symptom in their calves and immediately use of better results than those who waited. He estimates about three times as much was spent by the average farmer for medicine this past winter than usual.

In a few cases, he said, instead of use of drugs has developed a resistance in animals similar to human beings.

Dr. Jacobsen said some human drugs had been used in an effort to find something new and in most cases they did help, but at an additional cost over the usual medication.

Dr. Jacobsen said while scours often was the cause of trouble, one farmer who had had heavy loss, reports no scours in any of the animals he said while eyes have been another major disease this spring.

Dr. Jacobsen points out that have shown when cows are treated over an extended period of time, they begin to show vitamin deficiency.

"Green feed is good for them, but during the time they are being green-fed they build up a supply of vitamins that will usually run over a dry feeding period.

"When this period goes on beyond the usual four months of winter feeding, there is a possibility the animals develop the deficiency and this can be a factor in causing some diseases.

**ITEMS CONSIDERED**

WASHINGTON, May 1.—Announcement of a selection for animal types to permit additional types of catalase preparation to be used in under consideration by the federal food and drug administration.

Moscow, May 7.—Two new early-maturing varieties of Red Mexican beans are a step closer to commercial production. The pair, U138 and N137, promise to make possible a bean production possible in new areas of Idaho and reduce the risk of a short growing season in established bean producing sections.

Marshall LeBaron, superintendent of the Twin Falls branch of the University of Idaho Agricultural Experiment Station, this week delivered a 60-sack supply of precious seed beans to Carl Blackburn, outgoing director of the Idaho Crop Improvement Association. Almost immediately available to growers of this new varieties were allocated to selected bean industry representatives for seed increase. A complete distribution of all supplies was made. No more seed is available.

The increase was made possible by a contract to the Crop Improvement association and all seed remains the property of that association. This seed will be released to certified growers in

With favorable growing conditions this year there should be in excess of 1,000 bags of U138 and 800 bags of U137 available to certified growers in Idaho enough for 3,000 acres. By the all goes well, there should be sufficient supplies of seed for the two new Idaho beans to make up a significant part of commercial Red Mexican beans.

Associated with the seed is Dr. L. Dean, University of Idaho plant scientist and developer of the new beans, says the 20-day earlier maturity of U138 as its prime advantage. In addition, the new variety added resistance to root rot mosaic. N137 matures even days earlier than U138 but at cost of some reduction in yield. In trials in the Twin Falls sections U138 has made yields of 3,007 pounds and U137 2,807 pounds per acre.

**SHOSHONE, May 1** — All 41 members of the Future Farmers of America chapter at the Shoshone high school received letters of appreciation handed them last night in the Lincoln school auditorium.

The local chapter has been rated a superior-FFA unit in the state. New officers were inducted and Kelly Jackson, the one state FFA winner, the "public speaking" contest, urged members to "dare to do more than you can and then do it."

He urged the youths to recognize the value of the training available in the FFA.

The starting chapter of the organization, the youth said, aim that they motivate the force which sets the boys into action.

Gregory Beck, Ray Kelley, Mike Baresone, Dennis Swartz, Jim Haran, Jim Haddock, Don Williams, Walter Schoolcraft, Ronald Johnson, Vernon Ferrow, Glenn Sorenson, Ray Beck, Robert Harriid and Richard Casper, second year boys earning letters are Evan Oodoch and Terry Johnson.

The year boys include Lonnie Guthrie, Lavon Jones, Arthur Mills, Ernie Vineant and Gene Cheney.

Fourth year boys are John Chablis, Gordon Croft, Henry Tewn, Robert Hall and Don Felt.

Guests were introduced by Sentinel Ernest Vineant. They included Supt. and Mrs. Vernon Sauer, school board members, Mr. and Mrs. Elden Guthrie and

New officers installed were Richard Jesser, president; Galen Guthrie, vice president; Steven Bocaliger, secretary; Ernest Vincent, treasurer; Terry Johnson, reporter; LaVon Jones, sentinel; Ronald Croft, assistant treasurer; Gregory Beck, assistant secretary; and Rusty Tows, assistant reporter.

public speaking.

Golden Guthrie, livestock foundation award; Arthur Mills, dairy foundation award; Roy Peak, farm poultry foundation award; Mrs. Ernest Peters, horticulture award; Don Peak, local chapter farmer.

A plaque was presented Mrs. Edward Griggs, wife of the local FFA instructor, for her service to the organization the past year.

Other speakers included the following: Walter Hays, Richard Dyer, Barney, Eldon Braun, Don Gubser, Tom Carpenter, David Conner, Ronald Croft, Robert Danes, Walter Hubbs, Dennis Schoolcraft, Rusty Towe, Dale Williams.

"We regret that congress has passed the wheat-cotton bill. It will be bad for farmers, consumers and taxpayers.

"We thank those who worked so hard not only to uphold the farm bill but also to win the 1964 year's wheat referendum, but also to permit cotton producers to expand markets and plan their operations with confidence in the future.

"The new seed-appliance law passed in 1964 and 1965 crop full-scale review of farm policy will be necessary next year.

ROW AFTER ROW of sprinkler laterals are ready for use on the new Halls Creek project. The bulk of the project will be irrigated by irrigation water pumped from the Snake river and sprinkled on the crops.

NEW CONSTRUCTION goes on the Saller creek project. A 18-unit apartment building has been constructed for workers on the project, close to the rim of a high plateau overlooking historic Three Rivers crossing on the old Oregon trail.

WASHINGTON, May 1 (AP)—Last year's decline in milk production has apparently saved taxpayers about 60 million dollars.

The agriculture department reports that it contracted to buy nearly 150 million pounds of dairy products under the price support program last season.

The purchase was made during the daily marketing year which ended on August 1, 1964, and the government paid out nearly 500 million dollars. And, in addition, the agriculture department paid export subsidies for about 37.5 million dollars.

The total cost, a little over 535 million dollars, is about 50 million dollars less than the cost of the daily support program for the same period.

Agriculture department officials said price support expenditures went down because of two factors—a slight drop in milk production, partly due to drought and a slight increase in milk consumption.

Each of the project's initial six pumping-units is nearly 10 feet high and together they are capable of lifting some 30,000 gallons of water per minute from the river—enough pumping capacity to supply the city's water system. The units' motors are the largest served by Idaho Power.

Sailor Creek Water company's initial development of about 2,700 acres is largely being placed under power, with the remainder under carry.

Other speakers on the program were Genna Perry Mayor Herman Johnson, Herbert Edwards, Elmore county agent, and Dorrell Larsen, irrigation specialist. The session was moderated by J. O. Tenison, service representative of Idaho Power's central power division sales manager, who presided over ceremonies.

**BOISE, May 1** — Potatoes processed in Idaho plus Idaho potatoes processed in Malheur County, Ore., from July through February accounted for 17,822,000 per hundred weight of raw potatoes according to reports compiled from processors.

Of this, 13,716,000 per hundred weight were used in the manufacture of food products and 4,106,000 per hundred weight for starch, flour and alcohol.

the fall area of Idaho, 1,361,000 from the late summer area of Idaho, and 506,000 were shipped into Idaho from other states. The total quantity of potatoes used—in processing—during the first eight months of this marketing season was 36 per cent more than the same period last year—usage for food products was 14 per cent more, while starch, flour and alcohol was three and a half times that of a year ago.

**SNOBONE** May 1.—The Snohomish district of the bureau of forest management has begun land clearing work after an extended winter, which greatly disrupted normal operations, announces Marvin Pearson, district manager.

Much of the work now being done is a continuation of projects stopped by the heavy snow-fall last November. Progress is being made on the remainder of approximately 4,000 acres of range planting and completion of last fall's completion is expedited within the next few days.

The contractors are Geo. C. Reed, A. J. Gray, Shull, Reed, A. G. Adams, Bull, and others. The stock water wells are drilled this spring through the completion of one well at least winter. Contractors are Ray Henry and Weeder, who taught.

District personnel are presently preparing preparations for brush-spraying which is expected to start within the next weeks. This will involve the application of chemicals asparagus on 10,768 acres of range land. The area includes Mount West, Hilltop Mountain and Flying "A" Spruce Knob—Mont.

## 1964 Signup Is Under Way For Voluntary Wheat Plan

The signup for the 1954 voluntary wheat program is under way at the agricultural, stabilization and conservation office, Earl Boyd, chairman, announced today. Interested growers are urged to file their applications as soon as possible, since the signup will extend only through May 15.

While wheat growers may take part in the program or not, just as they choose, only those wheat producers who sign up and participate in the program will be eligible for diversion payments and marketing certificates on most of their wheat production, the chairman declared.

The diversion payments under the voluntary wheat program will be made for planting within the acreage allotment and putting to conserving use an acreage at least equal to 11.11 per cent of the farm allotment in addition to maintaining the normal acreage in conserving uses and meeting other program provisions.

The payments will be based on 20 per cent of the supply price support loan rates times the farm normal yield. Provision is also made for diverting additional wheat acreage under the program.

In previous years, all the wheat produced on a participating farm will be eligible for price-support loans, based on a national average of \$1.30 per bushel. This is about four cents per bushel higher than the loan rate would have been without the new program. In addition, marketing certificates, with a cash value of 70 cents per bushel for domestic and 25 cents for export, will in general be available for 90 per cent of the normal production of the farm allotment, but not more than the normal

## Chief Proclaims Flour Innocence

MINNEAPOLIS, May 7.—When informed of the indictment of major milling companies by a grand jury at Buffalo, N.Y., Gen. E. W. Sawings, president of General Mills, Inc., made the following statement:

"We are convinced we are innocent. Please keep in mind that this grand jury indictment is not a conviction, and we have yet to present our side of the case. The government merely presents evidence that it believes is true."

The indictment applies to flour sold to bakeries. It should not be construed by the public as meaning that millers have been selling bakery flour at a gross profit. The facts are entirely different.

"Flour's position as one of man's lowest cost as well as most basic foods is clearly illustrated by a study by the U.S. department of agriculture," said Sawings.

## Report Lists Rupert Cows

RUPERT, May 7.—Registered Holstein cows from this area are prominently mentioned in an official production testing report released by the Holstein-Friesian Association of America, Brattleboro, Vt.

Dollie Plebe Segs Walker, a 3-year-old registered Holstein cow, produced 19,488 pounds of milk, 200 pounds of butterfat in 343 days; and Burke Plebe Four Stars, a three-year-old, had 16,458 pounds of milk, 604 pounds of butterfat and 1,223 pounds solids-not-fat in 445 days. Both are owned by Louis Bolt and sons, Rupert.

According to the national Holstein organization, these production figures compare to an annual output of 7,211 pounds of milk and 270 pounds of butterfat by the U.S. dairy cow.

## Wyoming Sheriff Declares War on Roving Dog Packs

LANDER, Wyo., May 7.—The adage "a dog is a man's best friend" may still be true, but Fremont county stockmen have their doubts about it.

Several, in fact, are waging outright war against man's best friend, and according to Sheriff O. A. (Peewee) McDougall, the hostilities are not without provocation.

Incidents of livestock killing generally are more frequent during an early-spring epidemic of "cabin fever," which sends the hunters scurrying toward sheep pens after the long confinements of winter, McDougall said.

Within the past year, McDougall said estimates of the number of sheep killed or maimed in Fremont county by dogs "range as high as 500" at a cost to sheepmen of "thousands" of dollars. Recently a dog pack killed or crippled 30 sheep on the Raymond Chapman farm less than a mile from here.

The outbreak sent depulles scurrying into the countryside to set up a line of dog traps and prompted McDougall to tell stockmen to shoot on sight dogs found running loose on their property.

The depulles, according to the sheriff, are not wild—they're just ordinary, tall-wagging domestic types with diversified tastes. Some prefer cattle and calves while others go for deer, but most delight in "tearing into a neighbor's flock of sheep."

The dog packs are usually small—seldom more than four members strong. McDougall said he has followed dogs from the scene of their depredations back to the owners' doorstep, and once he followed a suspected pet from its home to a high-born house where it picked up a buddy and went into the hills for a deer chase.

But proving the crime to a pet owner is usually more difficult.

"They will show me their plate to prove how much food the dog gets."

"But with these dogs it's just a sport. They won't eat a mouthful of meat," said McDougall.

## Fast Action Expected in Wheat Setup

WASHINGTON, May 7.—FINAL enactment of the cotton-wheat bill is certain to transform the agriculture department into a veritable beehive of activity. Disapproval would create hardly a ripple in the agency's workday.

When President Johnson signs the bill into law, Secretary of Agriculture Orville L. Freeman is prepared to announce action programs for both wheat and cotton. Operation of the programs must begin at once if they are to have any effect on the production of this season's wheat and cotton crops.

In the case of wheat, the department must set up regulations under which domestic producers would be required to buy wheat certificates valued at 70 cents per bushel and exporters would buy certificates at 25 cents a bushel value.

The money received for these certificates would go to farmers who planted within 1954 allotments announced last year. Those who over-planted their allotments would get no payment.

In the case of cotton, the department must determine the payment rate for voluntary diversion and set the percentage of reduction for acreage diversion. The department also would determine the size of the so-called equalization payment to be made to domestic mills to enable domestic mills to compete with foreign buyers who get the benefit of an export subsidy.

The department also would have to determine how the equalization payment shall be

**VOLUNTEERS SERVICE**

WASHINGTON, May 7.—More than 100 volunteers are serving in 4-H peace corps projects, starting with a two or three month training course in language, host country studies, technical job skills, world affairs and United States history and culture.

And to whom. The agency also would have to determine the amount of acreage a grower would be permitted to use in producing a crop for export sale.

## Blaine Plans Grassman of Year Contest

SALO, May 7.—L. N. Purdy, Idaho, is chairman of a committee composed of representatives from four organizations indicating support for the Blaine County Grassman of the Year contest.

Representatives of the Blaine County Cattlemen's Association, Farm Bureau, Halley Chamber of Commerce and the Blaine County soil conservation district attended a meeting at the Star Inn Wednesday noon.

Norman Warren, Blaine county agricultural agent, was elected secretary. Also attending the meeting were Hugh Smith of the Idaho Power company, vice president of the state university; Dr. M. Witherspoon of the University of Idaho, extension service; Forrest Clausen, soil conservation service, Twin Falls; Kenneth Harrison, bureau of land management, fieldman, Idaho; and Owen Rice, Fairfield, Idaho's 1953 "Grassman of the Year."

The group voted to judge small, medium-sized operations in the 1954 contest rather than larger operations as was done last year.

Purdy indicated he would call a meeting of representatives from the supporting organizations early in May to get the contest under way.

Tentative plans are to hold the grassman's tour late in June or early in July.

## Farmers Can Insure Crop From Nature

In a marsh full of hunters you would hardly come across a sitting duck. That duck is too well aware of the danger that surrounds him.

Yet with so many dangers surrounding a farmer there are many who are "sitting ducks" for crop failure—completely exposed and unprotected against the ever-present hazards of nature that cause crop disaster in every part of our country.

After years of complete security about his business of raising, brushing aside the fact that it could happen to him. This farmer is in real danger—danger of not only losing his profit but his crop investment as well.

When this happens he is very likely to have his "wings clipped" and may never get off the ground again.

It has happened before and it can happen again unless there is a change—insurance—insuring against the loss of high production costs, said Douglas Bevoch, district director, federal insurance corporation.

Nature plays no favorites and she has a bag of tricks, one of which is the drought, letting you have good harvest year after year until it appears certain it won't happen, and then it does happen.

When it does happen a federal all-risk crop insurance in-cumtury check would be a needed transference for your injured bank account, said Bevoch.

## Pasture Is Affected By Grazing

WASHINGTON, May 1—Mostly grazed pastures will round to have only half the water absorption ability of lightly grazed land, agricultural research service scientists reported in March.

Continued heavy grazing of southern Great Plains ranges may seriously restrict the soil's ability to take in moisture needed for grass production, they warned.

Tests conducted at an Oklahoma field station showed that water intake was 2.7 inches per hour on range that had been heavily grazed for 30 years, 3.6 inches after moderate grazing, and 4.4 inches after light grazing.

## Report Indicates United States Leads Russia in Production of Fertilizer

WASHINGTON, May 1—An agriculture department report today indicated the United States has a long lead over the Soviet Union in the key agricultural field of fertilizer production.

The department estimated that fertilizer supplies in the United States for the current season will total nearly 10.8 million tons of plant nutrients. The estimate covers the year ending next June 30.

The American fertilizer supply is a new all-time record, up 10 per cent from last season. The American estimates of Soviet fertilizer production indicate the U. S. supply is more than double the Russian output for 1963.

On a per-acre basis, the United States lead in fertilizer is even greater. American supplies for the 1963-64 season are about three-and-a-half times the amount available in Russia. The Russians are trying now

to close this gap. Soviet officials have announced plans for a dramatic increase in fertilizer production.

The drive is the heart of a new campaign to increase Russian food production. But even if the fertilizer drive reaches its goals, Russian farmers may still lag behind Americans in using fertilizers.

Soviet fertilizer production in 1963 is estimated at 5.2 million short tons. By 1970, communist officials hope to push the figure up to nearly 21 million tons.

If total Soviet acreage remains unchanged, however, the amount of fertilizer available per acre by 1970 would be only slightly above the rate available in this country right now. And American production is expected to continue to increase in the coming years.

Tests in Florida and California cage poultry houses showed that the fly killer reduced fly numbers appreciably after 24 hours and gave a quicker kill—20 seconds after initial contact with the bait.

The sugar-bait remains active for long periods of time. In one test, a seven-month sample of the bait stored in an open shed was as effective as fresh Bonyl bait.

VANILLA IS TOPS WASHINGTON, May 1—P. S. Lucas, Michigan State university, confirms the fact that vanilla is the most popular ice cream flavor, accounting for something over 50 per cent of the frozen delicacy. Chocolate is a distant runner-up.

## New Dry Sugar Fly Bait Is Offered by Chemical Firm

NEW YORK, May 1—A new dry sugar fly bait that knocks flies down in 10 seconds and kills them in 30 seconds has been developed by General Chemical division, Allied Chemical corporation. It also controls flies resistant to other insecticides.

Called Bonyl, the sugar bait fly killer is recommended for dairy barns, animal buildings, cage poultry houses, kennels, stables, garbage dumps, outdoor garbage cans, picnic areas and similar outdoor areas where flies gather or breed.

Unlike most fly baits, Bonyl fly killer doesn't cake when exposed to moisture. In fact, it is more effective in damp or moist areas, according to General Chemical entomologists.

For the past two years, Bonyl fly killer has been tested throughout the United States in such areas as cage chicken houses, garbage dumps and cattle barns.

In a calf barn, it killed twice as many flies as any other bait after 48 hours. At a chicken processing plant, the fly killer maintained steady control over a longer period of time and out-killed six other baits.

A city garbage dump operator in the Midwest reported that the bait was more toxic to fly

## Dairy Bill Passed by Senate Could Clear House, Says Representative

WASHINGTON, May 1—A good chance to pass the house dairy bill is called up for action.

The bill would authorize farmers in milksheds covered by federal milk marketing orders to use a new pricing system. At present these farmers are paid a single blend price on all the milk they produce. Under the proposed bill, there would be two separate prices.

In milksheds which adopted the new plan, farmers would be given allotments representing their individual shares of the market for bottling milk. All milk delivered within those allotments would command a relatively high price. For all other milk, farmers would get a lower price.

Representative Albert Quie, R-Minn., said the bill, standing alone, had a good chance to pass. It is scheduled for action, he said, sponsored by Sen. William E. Proxmire, D-Wis., in pending in the house agriculture committee. No committee action has been scheduled on the measure, but one congressional source said it was possible this hearing could be set up within the next month.

Quie said he would support the new milk pricing plan in its entirety.

## New Record Set by Cow In Bott Herd

RUPERT, May 1—A new and higher milk production record in the official herd, 1963-64, was set by a Holstein cow owned by Louis Bött and sons, Rupert.

Breaking the previous all time record in Lakay Ideograph Fobes 431285 with her new record for mature Holsteins milked two times daily in the 305 day lactation totaled 28,306 pounds of milk and 953 pounds of butterfat.

Lakay Ideograph Fobes was bred in the herd of Lamar S. Handke, Burley. She was sired by Sleepy Hollow Fobes Wayne Cupud 918383, a bull that has earned a gold medal sire recognition.

Production sampling, weighing and testing operations were supervised by the University of Idaho working in cooperation with the national Holstein organization.
